

## CASE STUDY

### CENTER PARCS SHERWOOD IRMA & RHI APPLICATION

Renewable Heat Incentive Application for new biogas combined heat and power system at Center Parcs Sherwood Forest Holiday Village.

A 1500 kWth Biogas Combined Heat and Power Unit located at Center Parcs Sherwood Forest provides electricity to the whole site and eligible heat via a dedicated pre-insulated district heating system to the site main buildings where it is used for domestic hot water, space heating and indoor pool heating.

Biogas is piped to the site from a local Anaerobic Digestion plant.
